INTERCHANGEABLE HEAVY DUTY ALTERNATORS & STARTERS

Many heavy duty trucks are offered with interchangeable alternators and starters from various manufacturers. Over the years, many of these alternators and starters have evolved through several design changes. Most share common mounting configurations.

The following pages will be a guide to help identify and understand the supersessions and interchangeable options when identifying the replacement heavy duty alternator or starter. The goal of this consolidation effort affords fewer SKUs per product family to cover a wider product range.

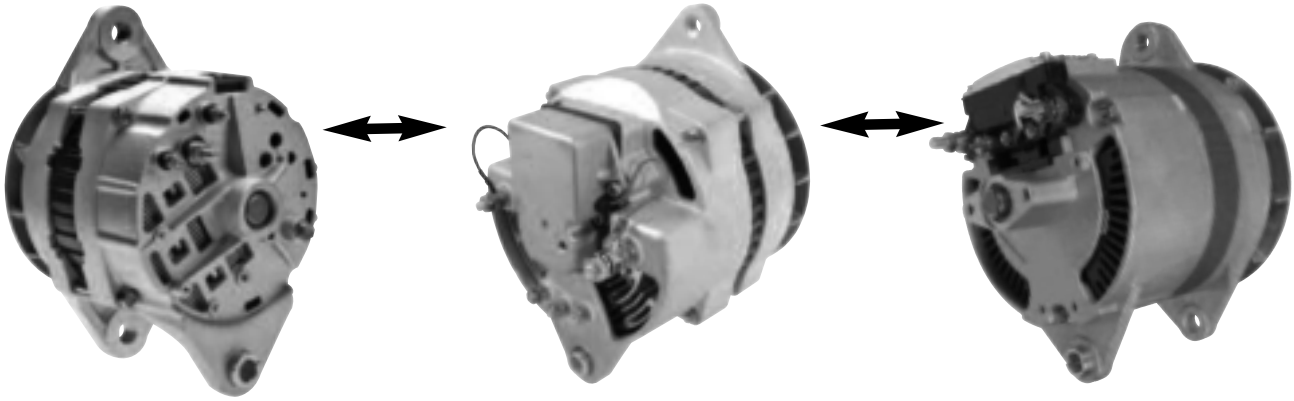
In the alternator family, this is accomplished by offering the highest amp alternator to cover all amperage ranges within a given family.

Heavy duty starters will also differ in appearance, however, the mounting flange and functionality of the starter is a direct cross.

The following charts will assist you in selecting the proper direct replacement by illustrating the optional consolidation and also pointing out any additional differences in the consolidation.

Copyright 2015 Wetherill Associates, Inc.

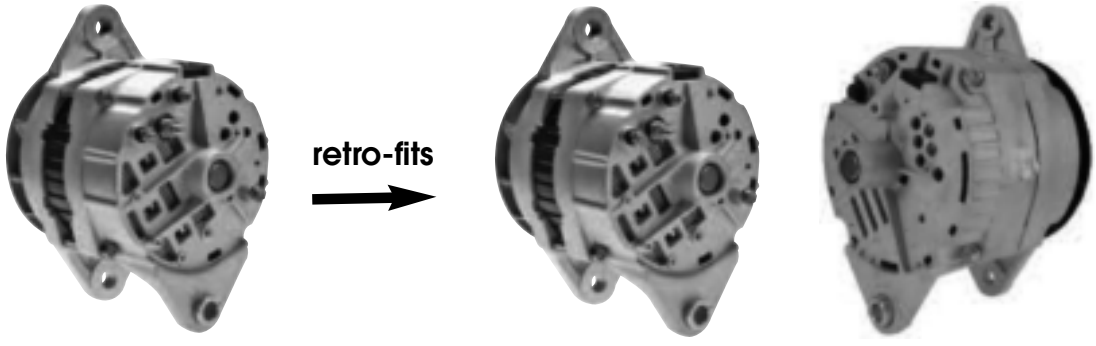
Interchangeable J180 Hinge-Mount, Brush Type Alternators



22SI Series for Delco
160 Amp/12 Volt
Retro-fits earlier 21SI, 27SI/200 Series

8LHA Triple Nickel Series for Leece-Neville/Motorola
160 Amp/12 Volt

2800LC Series for Leece-Neville
160 Amp/12 Volt
Retro-fits earlier 2300-2800JB Series (105-160 Amps)

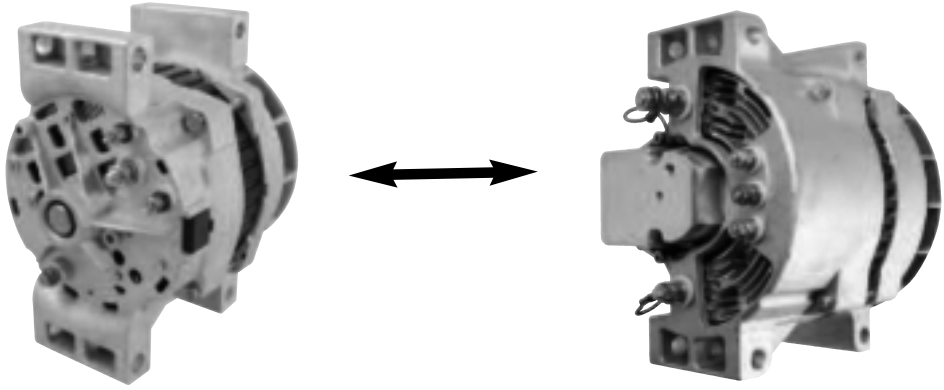


22SI Series
160A

earlier 21SI Series
rated 100-145A

earlier 27SI/Type 200
Series rated 65-100A

Interchangeable Pad-Mount, Brush Type Alternators



22SI Series for Delco
160 Amp/12 Volt

8LHP Series for Leece-Neville/Motorola
160 Amp/12 Volt

Copyright 2015 Wetherill Associates, Inc.

Interchangeable Brushless Alternator Configuration

36SI Series, J180 Hinge-Mount for Delco

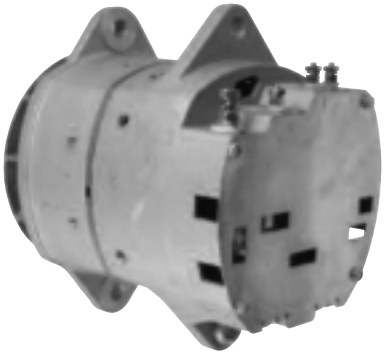
36SI Series
170 Amp/12 Volt

retro-fits →

earlier 35SI, 35SI HP Series
rated 140 amps

earlier 33SI Series
rated 100-135 amps

36SI Series, Quad-Mount for Delco



36SI Series
170 Amp/12 Volt

retro-fits →

earlier 35SI, 35SI HP Series
rated 140 amps

earlier 34SI Series
rated 100-135 amps

36SI Series, Pad-Mount for Delco

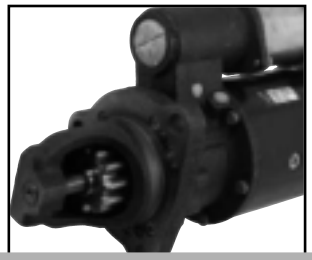
36SI Series
170 Amp/12 Volt

retro-fits →

earlier 35SI, 35SI HP Series
rated 140 amps

earlier 34SI Series
rated 135 amps

Starters with Rotatable, Multi-Position Drive-End Housings



The 37MT, 40MT, 41MT, 42MT, 50MT series starters for Delco have multi-position drive-end housings which can be rotated to different solenoid positions. It may be necessary to rotate the housing of the replacement starter to match the solenoid position of the original unit.
To change the drive-end housing position, remove the bolts located on the housing mounting flange. Remove the housing from the starter and rotate to the desired position, then re-attach and tighten the housing bolts to 13-17 foot pound torque.

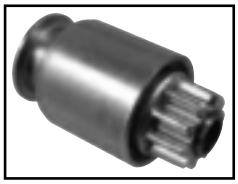
37MT Series Starters for Delco

37MT Series

retro-fits

earlier 30MT, 35MT Series

WPS 37MT features a positive engagement starter drive that eliminates the milling and stop ring and collar failure common on the original design.



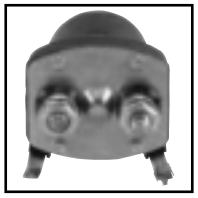
42MT Series Starters for Delco

42MT Series

retro-fits

Rectangular face solenoid

earlier 40MT Series
equipped with either a rectangular face or oval face solenoid switch.

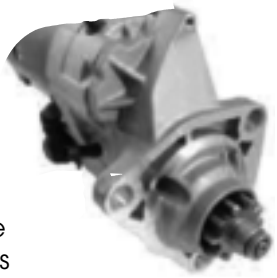


Oval face solenoid

available with optional Over-Crank Protection (OCP)

Gear Reduction Starters with Fixed Drive-End Housing

Often interchangeable on specific applications

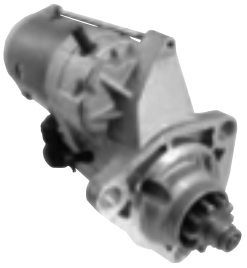


39MT Series for Delco
Planetary gear reduction design (PLGR) with sealed noseless drive-end housing

R5 Series for Denso
Offset gear reduction design (OSGR)

Features an Integral Magnetic Switch (IMS) for proper voltage during cranking cycle.

39MT Series for Delco



R5 Series for Denso

retro-fits

42MT Series

For additional application information, refer to catalog
